📋 CAREER OBJECTIVE

Motivated B.Tech Cyber Security student specializing in SOC operations and cloud security. Skilled in VAPT, SIEM monitoring, and incident response. Seeking an internship to apply real-time analytical and defensive security skills in cloud and enterprise environments.

📁 INTERNSHIP EXPERIENCE

- | | |
|-------------------|---|
| 08/2025 – 10/2025 | Cyber Security Intern - CyberZero.Club
Learned VAPT, SOC operations, and incident analysis using Burp Suite, ZAP, and Splunk. |
| 02/2025 – 03/2025 | Cybersecurity Intern
Hacktify Cyber Security LLP
Performed Web Application VAPT using Burp Suite, OWASP ZAP, and Kali Linux.
Reported security vulnerabilities with detailed remediation steps. |
| 01/2025 – 03/2025 | Cyber Security Intern
The Red Users
Worked on Network Security and Exploit Testing for simulated enterprise setups.
Supported vulnerability detection and report generation. |
| 08/2024 – 02/2025 | Intern
ShadowFox
Assisted in penetration testing projects and documentation.
Collaborated with teams to analyze system vulnerabilities. |

🎓 EDUCATION

- | | |
|------|---|
| 2027 | B.Tech in Computer Science Engineering (Cyber Security Specialization)
Parul University, Vadodara
CGPA: 7.38 / 10
Pursuing – 6th Semester |
|------|---|

KEY SKILLS

Security & VAPT

SQL Injection
XSS
Network/Wireless VAPT
Privilege Escalation

Programming

Python
Java
C (Basics)
Shell Scripting (Bash)

Tools

Kali Linux
Burp Suite
OWASP ZAP
Metasploit
Splunk
Wireshark
Volatility

Forensics

Disk/File/Memory Forensics
Steganography

SOC & Cloud

SIEM Monitoring
Log Analysis
Threat Detection
Incident Response
AWS Security

CERTIFICATIONS

Certified Network Security Practitioner (CNSP)

The SecOps Group

Quick Heal Certified VAPT Testing Analyst

Mastercard Cybersecurity Job Simulation

Forage

Threat Intelligence Fundamentals for SOC Analysts

SOCRadar

Quick Heal Certified Managing Cloud Infrastructure & Security Analyst

Certified Cybersecurity Educator Professional (CCEP)

Quick Heal Certified Network Security Analyst

Neo4j Certified Professional

PROJECTS

Phishing_Tool_by_Tecno (Python)

Automated phishing page generator and credential catcher.

TecnoShadowCrypt (Python)

Crypto tool for encryption/decryption and CTF cracking.

PasswordStrengthChecker_by_Tecno (Python)

Rates password strength using regex and entropy logic.
